

Are you concerned about your future?

CRISP presents a complete personality analysis through a scientific technique -

DMIT

- DMIT (Dermatoglyphics Multiple Intelligent Test technique) captures your fingerprints to analyse your personality by our expert counsellors.
- DMIT Report will benefit you by:
 - Knowing your inborn potential, strengths and talent.
 - Choosing the right career path and co-curricular activities for students.
 - Placing the right talent at the right position for corporates.
..... and much more through our expert counsellors.
