MANAGERIAL EFFECTIVENESS

...unleashing the full potential of men & machines

MANAGERIAL EFFECTIVENESS

Introduction of Course

Management is an art which requires understanding, analysing and implementation of policy and ideas so that utilisation of human resource can be assured in an efficient manner. In today's competitive environment, managers play a crucial role in organising and managing the resources available with the organisation. Formation of a competitive team and development of a conducive work culture in the organisation are inevitable factors to make the organisation globally competitive. Effectiveness is the capability of producing the desired result. When something is deemed effective, it means that it has an intended or expected outcome or produces a deep, vivid impression. Leaders lead in different ways, but getting results usually involves motivational techniques. Effective managers are able to connect a real and tangible meaning to each project to get the desired outcome.

We, at CRISP offer a well designed training programme focusing on creating creative and effective managers, who, with practice can excel in their performance.
